

**FRUIT, VEGETABLES
AND CONDIMENTS STATISTICS
OF PAKISTAN
2017-18**

**ECONOMIC WING
MINISTRY OF NATIONAL FOOD SECURITY & RESEARCH
ISLAMABAD
GOVERNMENT OF PAKISTAN
JANUARY, 2019**

MESSAGE

Agriculture is lifeline of Pakistan's economy. About 68% of population is engaged in farming directly or indirectly. Pakistan has a great potential for horticulture due to variety in land and climate which provide opportunity for the production of a wide range of horticulture crops.

This publication includes fruit, vegetables and floriculture commodities produced in the country and a viable, profitable horticulture sector can provide a sustainable livelihood to the rural agriculture commodity.

I appreciate the officers and staff of Economic Wing and also those who participated in collection and compilation of data and provincial Crop Reporting Service centers (CRS).

Suggestions are always welcome to make better this publication in future.

Dr. Mohammad Hashim Popalzai
Secretary
Ministry of National Food Security and Research

15th November, 2018

FOREWORD

Pakistan is an agricultural country with population of 207.77 million with annual population growth rate of 2.4 percent. Food Security and economic development of the country predominantly hinges upon the agriculture. Agriculture sector recorded a remarkable growth of 3.81 percent. Horticulture in Pakistan has emerged an important sector contributing to the national agricultural GDP s share and produce large number of horticultural products to fulfill domestic demand of fruit and vegetables for ever increasing population. The demand for fruits and vegetables is continuously increasing in local and export markets. In 2016-17 overall fruit export has witnessed a steady growth.

Pakistan is a major producer of fruits and vegetables. More than 29 types of fruits and 33 types of vegetables are produced in the country throughout the year. However, most of the production is consumed in domestic markets. Production of citrus, mango, apple, melons, dates, guava, and apricot reflects strong domestic market demand for horticulture crops. Citrus fruit, primarily the mandarin variety. The highest production have reached i.e Citrus fruit & Mango 2.4 and 1.7 million tons, the largest fruit crop group by volume and are major export revenue earner. According to latest figures Pakistan exported 710 thousand tons of fruits and vegetables 875.3 thousand in FY 2017-18.

I hope this book will provide a useful data base and reference document for the policy makers, researchers, students, planners and general public. I appreciate the hard work done by the officers and staff of the Economic Wing involved in data collection and compilation of “**Fruit, Vegetables and Condiments Statistics of Pakistan, 2017-18**”. Suggestions for improvement of the publication will be welcomed

(Dr.Muhammad Ali Talpur)

Economic Consultant

16th November, 2018
